PROGRAMME

8:30–10:40 | PART I

8:30–8:40

Introduction / Welcome

Radka Lordick Obermannová

Marek Svoboda, Director of MMCI

Igor Kiss, Head of the Czech Society for Oncology

Markus Moehler, Head of GITCG of EORTC

Chairs: Radka Lordick Obermannová, Štefan Pörsök

8:40–8:55

Novel approaches for HER2 positive and Claudin 18.2 positive upper GI tumours

Florian Lordick, Leipzig

8:55–9:10

Oligometastatic disease – the same treatment concept across GI malignancies?

Markus Moehler

9:10–9:20

Future and perspectives of GITCG

Lizzy Smyth, Oxford

9:20–9:30

Panel discussion

Moderator: Radka Lordick Obermannová, Štefan Pörsök;

Florian Lordick, Markus Moehler, Lizzy Smyth

Chairs: Elisa Fontana, Milan Vošmik

9:30–9:45

ctDNA as a biomarker for improving the treatment of locally advanced and oligometastatic GI cancer?

Gunnar Folprecht, Dresden

9:45–10:00

Optimal management of locally advanced rectal cancer – novel systemic treatment (MSI, Prospect, TNT)

Francesco Sclafani, Brussels

10:00–10:15

Optimal management of locally advanced rectal cancer – where is the optimal place for radiotherapy? (Low risk vs high risk, organ preservation)

Radka Lohynská, Praha

10:15–10:30

Panel discussion

Moderator: Elisa Fontana, Milan Vošmik;

Gunnar Folprecht, Francesco Sclafani, Radka Lohynská, Igor Kiss, Jakub Cvek

10:30–10:40

Creation of a European network to improve the comprehensive treatment of AYA GI patients

Irit Ben-Aharon, Haifa

10:40–11:15 | COFFEE BREAK
