## ABOUT

Situated in the Masaryk Memorial Cancer Institute, which stands as the Czech Republic's most comprehensive cancer centre, the Phase I Trials Unit has been at the forefront of providing specialized facilities and expertise for early-stage clinical research since 2012.

The unit is equipped to conduct Phase 1 trials, and as of 2023, it has been certified to undertake also First-in-Human clinical trials. We cooperate with Big Pharma companies since 2000.

## WHAT WE PROVIDE

- 6 inpatients beds with 24/7 monitoring
- 6 outpatient beds with telemetry
- Dose Escalation clinical trials
- Intensive PK/PD sampling for central labs
- Monitoring of patients (telemetry, ECG, vital signs)
- Immediate availability of in-house emergency care
- Data entry by qualified data managers within 2-5 days
- 3 daily workspaces for CRA
- Support of the Clinical Trials Unit
- Regional patient referral network

## ADVANTAGES

### 1. Experienced team

The Phase I Trial Unit Team is comprised of a diverse group of professionals, including 5 investigators, 2 study coordinators, 2 study nurses, 3 data managers, along with lab coordinators, pharmacists, and radiologists, all working collaboratively to ensure the success of our trials.

### 2. High quality standards

During the conduct of clinical trials, we fully adhere to Good Clinical Practice (GCP) principles. We also follow more than 30 Standard Operating Procedures (SOPs). We undergo audits and inspections annually.

### 3. Start-Up and Enrollment

The speed of the start-up is crucial for us. For Phase 1 trials, we guarantee the CTA conclusion within 12-16 weeks. We meticulously ensure rapid patient recruitment and meet the enrollment target. The site has been among top recruiters multiple times.

## AT A GLANCE

- 6 outpatient monitored beds
- 6 inpatient 24/7 beds
- certified for first-in human clinical trials in solid oncology
- experienced dedicated team
- GCP compliant
- QA/QC high standards
- background of excellent comprehensive cancer centre

**ASSOC. PROF. RADKA LORDICK  
OBERMANNOVÁ, MD, PHD**

Head of Phase 1 Trials Unit, clinical oncologist

*„We are delighted to participate alongside the world's most prestigious sites in the development of drugs in their earliest clinical phase. The patient always comes first for us.“*
